SKILLS

Languages: C, C++, Java, JavaScript, PHP
Frameworks: HTML, CSS, Tailwind, Bootstrap, NodeJS, Express, ReactJS, Laravel
Tools/Platforms: VS Code, Canva, WordPress, MySQL, MongoDB
Soft Skills: Troubleshooting, Collaboration, Project Management, Strategic Thinking

INTERNSHIP

Full Stack Web Development Intern | 1Stop.ai | Certificate — Jan 2025 - May 2025

- Developed and enhanced full-stack features using **React, Node.js, JavaScript, and REST APIs**, improving overall functionality
- Collaborated with the team to write clean, scalable code using **Git, HTML/CSS, and Tailwind**, ensuring smooth project delivery
- Integrated and tested **API endpoints**, fixed bugs, and optimized performance across the **frontend and backend**

PROJECTS

LetsFocus – Productivity tracking Platform — Feb 2026-Mar 2026

- Identified productivity challenges such as inconsistent focus, poor task prioritization, and lack of actionable insights, where users struggled to maintain focus for even 30–40% of sessions and faced distractions
- Implemented an AI-powered full stack productivity app featuring secure login, personalized dashboards, focus timers, and task tracking, helping users improve productivity and focus consistency by ~60%
- Achieved significant performance and engagement improvements by optimizing rendering, API response , and backend queries, reducing application load time by ~20% and increased system efficiency by ~30%
- **Tech**: ReactJS, NodeJS, Express, MongoDB | Github | Live

Unimart – Real-Time Ordering & Delivery Platform — Nov 2025-Dec 2025

- Constructed a full-stack grocery ordering platform enabling real-time order placement, live delivery tracking, and role-based dashboards for users and delivery partners
- Orchestrated real-time order lifecycle updates and delivery location tracking using WebSockets, cutting order status latency by ~60%
- Architected RESTful APIs and streamlined MongoDB queries for orders, products, and users, boosting data retrieval performance by ~45% and handling 1000+ concurrent requests

Tech: ReactJS, NodeJS, Express, MongoDB, APIs | Github | Live

ResQnet – Emergency & Smart Alert Platform — Sept 2025-Nov 2025

- Engineered an AI-driven emergency response platform that collects incident data, analyzes severity levels, and automatically triggers alert workflows for faster coordination
- Built real-time decision pipelines capable of processing 10,000+ data points/min, ensuring accurate event filtering and quicker severity detection
- Elevated overall system reliability by ~40% and reduced emergency response processing time by ~35% through backend logic optimization, API tuning, and efficient data handling

Tech: ReactJS, NodeJS, MongoDB, Vosk STT | Github | Live

CERTIFICATE

- Java Skill Up | GFG — Nov 2025
- Data Structures & Algorithms | CipherSchools — Jul 2025
- AI Agents with MongoDB | MongoDB — Jun 2025
- Web Development Training | Infosys — Oct 2024

ACHIEVEMENTS

- Solved 500+ DSA problems on LeetCode, GFG, and Code 360 — Jan 2026
- Secured selection for Smart India Hackathon (SIH) 2025 in Internal Hackathon — Sept 2025

EDUCATION

Lovely Professional University — Punjab, India
Bachelor of Technology - Computer Science and Engineering | CGPA: 8.71 — Aug 2025-Jul 2027

Army Public School Udhampur — Udhampur, India
Intermediate; Percentage: 90.6 — Aug 2021-Mar 2023
